Details: Available for photo ops, interviews, etc.

ScooterIceland.org is organizing an incredible excursion to ride scooters 3,000 miles/4,828 kilometers around the outer perimeter of Iceland to raise awareness and funds for pulmonary fibrosis, a disease that affects 1 in 200 adults over the age of 70. Our event aims to accomplish something epic, a once-in-a-lifetime achievement that inspires people to live boldly and seize the day, while supporting the Pulmonary Fibrosis Foundation with the funds raised.

- [Haworth](#)

Pulmonary Fibrosis Foundation's mission is to accelerate the development of new treatments and ultimately a cure for pulmonary fibrosis. Until this goal is achieved, the PFF is committed to advancing improved care of patients with PF and providing unequalled support and education resources for patients, caregivers, family members, and health care providers.

ScooterIceland.org's mission in cooperation with The Valhalla Fund is to create epic events that bring visibility and resources to find a cure for pulmonary fibrosis.
